

A True Discovery

Domaine Pinnacle is a family-owned orchard and cidery located on the southern slopes of Pinnacle Mountain in the Eastern Townships of Québec, Canada. Here along the 45th parallel – the same latitude as the world's renowned wine regions – ideal summer growing conditions and frigid Québec winters join forces to create opulent and delightful nectars unlike anything else you've tasted before.

Rich, golden and full-bodied in the glass, Domaine Pinnacle's ice ciders are made from an exclusive blend of 6 different varieties of apples, hand-picked and pressed late in the season, then slowly fermented to perfection. The result is a stunning and unique Québec taste sensation: velvety smooth, complexly-flavoured and with an incredibly long-lasting finish. Exquisitely balanced and wonderful to drink right now, these products will continue to improve with age and can be enjoyed for many years to come.

Authentic Pinnacle ice ciders (also known as "ice apple wines") are all-natural with no additives.

Serve well chilled as an aperitif, with foie gras, fine cheeses, a variety of desserts or simply to end a perfect meal.

Critically Acclaimed

Since the first vintage in 2000, critics, chefs and sommeliers alike have heralded Domaine Pinnacle's ice ciders as an accomplishment and an innovation that sets a new standard for fine, regional products.

Recipients of 9 gold medals in major national and international competitions, and winners of numerous other awards and accolades, Domaine Pinnacle's top-quality products are now savoured by connoisseurs in over 20 countries.

"★★★★" *"Cabvados and icewine on the nose and palate, gentle acidity to handle its sweetness."*
