FESTIVAL

The annual Welsh Perry & Cider Festival is the culmination and celebration of all the hard work that takes place across the industry throughout the year. From the picking of the first apple in September and the squashing of the last pear in December, to the careful Springtime blending, Summer events, and Winter orchard pruning.

PROMOTING HERITAGE WELSH VARIETIES

With the help of Heritage Lottery funding, the WPCS are creating four museum orchards across Wales to preserve the Welsh varieties of Perry pear and Cider apple, in addition to our existing one at Raglan Cider Mill.

The Welsh Perry & Cider Society

The Society aims to promote interest in the production of cider and perry in Wales and to encourage a greater appreciation of these natural craft drinks. Since its formation in 2001 it has been working tirelessly to represent, support and encourage Welsh cidermakers both large and small.

The W.P.C.S. works to make craft cider & perry more accessible to the general public and to promote it as an indigenous alternative to wine. In addition, the Society plays a large role in identifying and conserving Welsh varieties of cider apples and perry pears and spearheading the regeneration and conservation of Welsh orchards.
